

The Three-Point Problem

Individual exercise worksheet

Using the companion interactive tool ([activity4_1_three_point_problem.html](#)), work through the three-point problem by hand and record your working and answer below.

Working

Vector A→B (Easting, Northing, Elevation change)

Vector A→C (Easting, Northing, Elevation change)

Cross product / normal vector components

Answer

True dip magnitude (°)

Dip azimuth (° from North)

Sketch notes for the cross-section (describe, since this sheet can't be drawn on)
